Summary

Experienced frontend developer with 5 years of proficiency in creating responsive and user-friendly web applications. Demonstrated expertise in HTML, CSS, JavaScript, and modern frameworks like ReactJS and VueJS. Proven track record of delivering high-quality projects that exceed client expectations and enhance user experiences.

Professional Experience

Software Developer, (Opcito Technologies) **Pune, India** 06/2021 - present

- Developed comprehensive frontend projects from scratch, adhering to best practices and implementing a well-organized directory structure for efficient maintenance and scalability.
- Developed fully responsive web pages, optimizing performance and user experience on both desktop and mobile devices.
- Led the implementation of a comprehensive real-time data infrastructure, integrating web sockets for instant communication, authentication mechanisms including Keycloak, and Role-Based Access Control (RBAC) protocols, ensuring secure and efficient data management across the platform.
- Enhanced web application performance metrics to achieve a 90% improvement by leveraging Google Lighthouse for assessing performance, accessibility, best practices, and SEO aspects of web pages.

Associate Software Engineer (Astuter Technologies) **Pune, India** 08/2019 - 06/2021

- Develop responsive and visually appealing user interfaces for an e-commerce website using Vue.js/Nuxt.js, ensuring seamless navigation and enhanced user experience.
- Design and implement interactive dashboards with Vue.js/Nuxt.js to provide comprehensive data visualization and analytics for effective decision-making in various aspects of business management.
- Implemented SEO best practices within the Vue/Nuxt e-commerce website, optimizing meta tags, structured data, and content to enhance search engine visibility and drive organic traffic growth.
